1.0 Institutional identity and scope

The Demo Land Records Office is a (fictional) semi-autonomous government agency that maintains the land register for its registration area, registers transfers, charges and other dealings, conducts official searches, issues certified copies and keeps parcel files in its strongroom and archives. It operates a headquarters registry and two district registries, with an establishment of 186 staff.

These Procedures apply to the Board of Directors, management, all employees (permanent, contract and interns), agents, suppliers, contractors and any other third party that transacts with the Office. They cover both the core mandate (registration of dealings, maintenance and rectification of register entries, official searches and certified copies, custody of parcel files and complaints) and all support services (procurement, human resource, finance, ICT, records and stores).

2.0 Commitment and objective

The Office maintains zero tolerance to bribery and corruption and is committed to the prevention, detection, deterrence, reporting of and appropriate action against bribery and other forms of corruption, in adherence to the Anti-Bribery Act, the Bribery Regulations 2022, the Attorney-General's Guidelines (2022) and these Procedures.

3.0 Procedure content

3.1 Relevant policies

These Procedures complement the Office's Code of Conduct and Ethics, Whistle-blower Protection Policy, Conflict of Interest Policy, Gifts and Hospitality Policy, Records Management Policy, ICT Access Control Policy and the Public Procurement and Asset Disposal Act.

3.2 Bribery and corruption risk assessment

The Office shall identify, assess and map bribery and corruption risks across core and support functions, design controls, and monitor and review them. The assessment is overseen by top management through the Corruption Prevention Committee (CPC), conducted by the Integrity Assurance Officers (IAOs), reviewed at least annually and documented in a Risk Assessment Report and an Anti-Bribery and Corruption Mitigation Plan.

3.3 High-risk areas

Edits and rectification of land register entries; the presentation book (priority of instruments); custody and movement of parcel files; official searches and certified copies; gifts and hospitality; conflicts of interest; procurement; recruitment; facilitation payments; and privileged access to the land register database.

3.4 Managing third parties

All contracts above KES 500,000 shall include anti-bribery clauses and a conflict-of-interest declaration; new suppliers complete a due-diligence questionnaire; these Procedures are shared with all third parties on engagement. Procurement approvals are subject to an independent quarterly spot-check by Internal Audit, and its findings are recorded in the CPC minutes.

3.5 Specific controls for edits to land register entries

Every edit to a land register or presentation-book entry shall be made only through the land register system with the record-edit change log enabled. The change log captures the individual user, time, before-and-after values and the instrument or approval reference of each edit; generic or shared accounts are prohibited. An edit without an instrument reference requires Deputy Registrar approval. The change log shall be reviewed every quarter by Internal Audit with the IAO Committee, and the review report tabled at the IAO Committee and the CPC.

3.6 Reporting channels and processing of reports

Reports may be made in person to the Designated Senior Officer, in writing, to integrity@demo-008.example.invalid, through the reporting boxes in each registry, through the anonymous web form, or directly to the Ethics and Anti-Corruption Commission through its official channels. Reports are acknowledged, recorded in the Reports Register, forwarded by the Designated Senior Officer to the enforcement structure and to the Commission within 24 hours, inquired into, and the outcome communicated to the Commission within 7 days of determination. Feedback is given to the informant where applicable. The Annex I reporting form of the EACC Model Procedures is adopted without change.

3.7 Protection of whistle-blowers, informants and witnesses

The identity of reporters is kept confidential; retaliation is a disciplinary offence; anonymous reporting is permitted; reports of victimisation are handled by the Designated Senior Officer directly with the Accounting Officer.

3.8 Communication and training

These Procedures are published on the staff intranet and website. All staff in high-risk functions shall be trained on them according to the named-staff schedule in the Mitigation Plan; all other staff receive annual sensitisation.

3.9 Monitoring, evaluation and review

The CPC monitors implementation quarterly. These Procedures are reviewed every two years or earlier on a material change in risk, law or EACC guidance, using the Annex 2 compliance checklist of the EACC Model Procedures.

4.0 Designated implementation responsibility

Structure	Holder	Responsibility
