1.0 Context of the assessment

This assessment was conducted after the Fund's Procedures for the Prevention of Bribery and Corruption were approved (Board Resolution DEBF/BD/RES/2026/044) and as a precondition for the FY 2026/2027 corruption prevention performance contract indicator. In FY 2025/2026 the Fund received 41,300 applications for 11,600 bursaries; five public complaints alleged that awards were made to applicants who did not meet the criteria, and applicants could not see why they were unsuccessful.

2.0 Scope: core and support functions

Category	Functional areas assessed
Core mandate	Call for applications and intake; needs assessment and ranking; award decisions; disbursement to learning institutions; appeals and complaints.
Support services	Procurement; human resource (recruitment); finance (payments); ICT (applicant MIS administration); stores and assets.

3.0 Methodology

The IAO Committee reviewed process maps, interviewed 27 staff across the ten functional areas, examined complaints and audit reports for FY 2025/2026 and held two validation workshops with heads of department. Each risk is scored on the declared 1-5 scales below; severity score = Probability x Impact (1-25).

Score	Probability (Pr)	Impact (Im)
1	Rare - not expected in the year	Negligible - no service or reputational effect
2	Unlikely - could occur once in the year	Minor - isolated, quickly corrected
3	Possible - may occur a few times	Moderate - fairness of awards affected
4	Likely - occurs regularly	Major - systemic unfairness, financial loss or media attention
5	Almost certain - occurs frequently	Severe - widespread loss of public trust or legal liability

Severity bands: High 15-25; Medium 6-12; Low 1-5.

Medium (6-12)	R-03 (12), R-06 (12), R-09 (12), R-04 (10), R-08 (10), R-05 (8), R-07 (8), R-10 (6)	8

6.0 Assessment of existing controls

Existing controls for the two high risks rely on internal approval of award lists. Because neither the criteria nor the results are published, applicants and the public cannot test whether an award followed the criteria, and favoured or ineligible awards are unlikely to be detected. Controls for support functions are largely system-enforced (IFMIS, e-procurement) and are rated adequate subject to staff awareness of the new Procedures.

7.0 Recommendations to the Mitigation Plan

- Publish the award criteria before every award round and the results list after every award decision, with a published appeals window (treats R-01, R-02 and R-05).
- Train staff in affected functions on the Procedures in four named cohorts during the year (treats R-01 to R-04, R-06 and R-09).
- Continue existing controls for R-07, R-08 and R-10 and monitor them at each quarterly CPC meeting.
- Hold quarterly IAO Committee and CPC meetings to track implementation and approve reports to the Commission.
