Duly signed minutes of both meetings accompany each quarterly progress report.

3. Scored milestone baseline for FY 2026/2027

The milestones below form the scoring baseline for the year. Each quarter's milestones are submitted for confirmation and activation by the assigned prevention officer before that quarter opens. Each milestone carries an equal demonstration weight of 1; equal weights are a simplification and do not imply equal real-world importance. Where a condition is measured over a period, the measurement window closes on the date stated so that results can be recorded in that quarter's signed CPC and IAO minutes. Evidence expectation for every milestone: signed CPC and IAO Committee minutes recording the result.
