1.0 Context of the assessment

This assessment was conducted after the Office's Procedures for the Prevention of Bribery and Corruption were approved (Board Resolution DLRO/BD/RES/2026/019) and as a precondition for the FY 2026/2027 corruption prevention performance contract indicator. During FY 2025/2026 the Office received 41 public complaints alleging unexplained changes to ownership or charge entries, or 'missing' parcel files, and an internal audit found that 11 registry staff shared one generic edit account on the land register database.

2.0 Scope: core and support functions

Category	Functional areas assessed
Core mandate	Maintenance and rectification of land register entries; registration of dealings (presentation book); parcel file custody; official searches and certified copies; complaints and customer feedback.
Support services	Procurement; human resource (recruitment); finance (registration fee collection); ICT (land register database administration); stores and assets.

3.0 Methodology

The IAO Committee reviewed process maps, interviewed 27 staff across the ten functional areas, examined complaints and audit reports for FY 2025/2026 and held two validation workshops with heads of department. Each risk is scored on the declared 1-5 scales below; severity score = Probability x Impact (1-25).

Score	Probability (Pr)	Impact (Im)
1	Rare - not expected in the year	Negligible - no service or reputational effect
2	Unlikely - could occur once in the year	Minor - isolated, quickly corrected
3	Possible - may occur a few times	Moderate - service quality or fairness affected
4	Likely - occurs regularly	Major - loss of property rights, financial loss or media attention
5	Almost certain - occurs frequently	Severe - widespread loss of public trust or legal liability

Severity bands: High 15-25; Medium 6-12; Low 1-5.

4.0 Risk register (Appendix III(a): Corruption Risk Assessment)

Name of Institution: **Demo Land Records Office** FY: **2026/2027** Corruption Risk Assessment

R-01	Land register entries (Core)	Unauthorised alteration of ownership, charge or caution entries in the land register in exchange for a bribe or favour. Medium (6-12)	R-03 (12), R-06 (12), R-07 (12), R-08 (10), R-09 (10), R-04 (9), R-05 (8), R-10 (6)	8
Low (1-5)	-	0

6.0 Assessment of existing controls

Existing controls for the two high risks rely on printed lists and supervisor sign-offs that do not show who edited a register or presentation-book entry, what it was before, or why. They therefore cannot detect unauthorised alteration. Controls for support functions are largely system-enforced (e-payment, e-procurement) and are rated adequate subject to staff awareness of the new Procedures.

7.0 Recommendations to the Mitigation Plan

- Introduce a record-edit change log on the land register and presentation book, retire the generic edit account, and review the change log every quarter (treats R-01, R-02 and R-09).
- Train named staff in affected functions on the Procedures in four cohorts during the year (treats R-01 to R-04, R-06, R-07).
- Continue existing controls for R-05, R-08 and R-10 and monitor them at each quarterly CPC meeting.
- Hold quarterly IAO Committee and CPC meetings to track implementation and approve reports to the Commission.
